The following formula is used to calculate a program's retention rate:

$$(EE + G) / (BE + NS + RE) = R \%$$

EE = Ending Enrollment, G = Graduates, BE = Beginning Enrollment, NS = New Starts, RE = Re-entries, R% = Retention Percentage

The following formula is used to calculate a program's placement rate:

$$(F + R) / (G - U) = P \%$$

F = Graduates placed in their field of training, R = Graduates placed in a related field of training, G = Total graduates, U = Graduates unavailable for placement, P = Placement percentage

The credentialing rates are based upon the following formula:

$$GP / (GT - GRP) = \text{Examination Pass Rate}$$

GP = Total graduates passing examination (any attempt), GT = Total graduates taking examination, GRP = Total graduates with results pending, Examination Pass Rate = Percentage of students passing examination
