

ADDENDA/ERRATA SHEET

MILDRED ELLEY
ALBANY, NEW YORK CAMPUS
2024-2025 ACADEMIC CATALOG

Please note the following *addition*, ~~deletion~~, or change to the 2024-2025 Academic Catalog

Graduation Requirements pg 47

Candidates for graduation from Mildred Elley must successfully complete the required number of courses and semester credit hours for their chosen curriculum. Students must have a cumulative grade point average (GPA) of 2.0 (a “C”) or better, and a minimum of 50 percent of the total credits or hours required for their program must be earned at Mildred Elley.

~~Students graduate at the end of the module in which they meet all of the requirements of their program. Formal graduation ceremonies are held once a year. Please note that participation in a graduation ceremony does not constitute verification of earned credentials.—~~

To be eligible for Mildred Elley to confer a degree or credential, students must satisfy all outstanding academic, administrative, and financial obligations to the institution in place at the time the students seek to graduate. This includes completing any remaining academic or administrative documents, submitting a graduation checklist, and ensuring that all financial commitments are resolved and are current (e.g., all financial aid requirements met, student account paid or has a payment plan in place, etc.). Failure to meet these requirements will result in Mildred Elley’s inability to confer the degree or credential.

Participation in the graduation ceremony does not guarantee that a student has officially graduated. The Office of the Registrar certifies graduation only after a thorough audit confirms that all certificate or degree requirements have been met.

Additional Degree or Certificate

Any student who graduates from Mildred Elley and returns for an additional degree or certificate must achieve a cumulative grade point average of 2.0 for all courses taken for the additional degree or certificate. The grades earned and quality points awarded from prior degrees or certificates at Mildred Elley are not used in the cumulative grade point average calculated for the additional degree or certificate to determine graduation eligibility.
